5. Rules:

- (a) Starboard tack has right of way
- (b) Don't bump into anyone (Prevention of Collision at Sea Rules)
- (c) No Spinnakers/Gennakers etc (Just Genoa and Main)
- (d) In the event you come across a fleet close racing, boat against boat, even if you have a right of way give them a little space so as not to adversely affect an outcome.
- (e) If the majority of the owners about to take part in a race so decide, then engines may be used up to the moment of crossing the line at which point no motors can be running. The object is that in nil/very light/ wind conditions we can either take a run at the line in order to get round a distance mark or prevent getting swept across the line by the tide.

6. Race Duration

The race time limit for class 6 will be 3 hours.
